

# IMASHA ATHAPATHTHU

## IT UNDERGRADUATE

### PROFILE

I am a passionate and detail-oriented individual excited about beginning my career in Quality Assurance (QA). I have a strong understanding of software testing concepts and methodologies, and I am eager to apply and improve my skills in real-world environments. I'm enthusiastic about contributing to a dynamic team by ensuring product quality through careful testing, defect identification, and continuous improvement. I am highly motivated to gain hands-on experience in manual and automated testing, while learning and growing as a QA professional.

### WORK EXPERIENCE

#### Digital Product Customer Service Assistant

[Bank Of Ceylon, Kamburupitiya, Sri Lanka | 2022 August - 2023 February](#)

As a Digital Product Customer Service Assistant at Bank of Ceylon, I provided excellent customer service, addressing inquiries and assisting customers with digital products in the Kamburupitiya branch from August 2022 to February 2023

#### Trainee Assistant-Cashier

[Regional Development Bank- Kamburupitiya , Sri Lanka | July 2023-October 2023](#)

As a Trainee Assistant-Cashier, I supported daily banking operations by handling customer transactions such as deposits and withdrawals, maintaining accurate cash records, and assisting with account-related inquiries. I provided reliable customer service while ensuring efficiency and accuracy at the counter.

### EDUCATION

#### BSc (Hons) in Information Technology

##### Specializing in Information Technology

[Sri Lanka Institute of Information Technology, Malabe | 2023-Present](#)

Tailored for technically focused students, this program hones programming skills, emphasizing software design, engineering, operating systems, systems administration, technical support, and networking.

### LEADERSHIPS

- Prefect - School Prefect Board
- Prefect- Dhamma school
- Batch Representative - Sri Lanka Institute of Information Technology

### SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

### EXTRAS

- Senior Announcer - School Media Unit
- Certified Customer Service

• Automated Parking System - IWT Project

Developed a web-based parking management system using PHP, HTML, CSS, and JavaScript with database integration. Created and executed test cases to validate reservation, payment, and user workflows, ensuring system reliability.

• School Management System-OOP Project

Built a Java-based system with HTML, CSS, JavaScript, and MySQL to manage students, subjects, and exams. Designed functional test cases and performed manual testing to verify core features and fix usability issues.

• Yogurt Manufacture and Production Management System (PERN Stack)-ITP Project

Developed a full-stack PERN application using React.js, Node.js, Express, PostgreSQL, and Tailwind CSS. Conducted end-to-end testing, prepared test scenarios, and validated production, inventory, and employee modules for accuracy and performance.

• Habbit Tracker Application(Kotlin)- MAD Project

Created a Kotlin-based mobile habit-tracking app with data persistence to securely store and retrieve user habits. Wrote test cases, performed UI and functional testing, and verified smooth user flows and consistent data handling.

I hereby affirm that the information provided is accurate to the best of my knowledge and belief.
