Professional Summary

Third-year BSc (Hons) in Information Technology undergraduate with hands-on experience designing and developing full-stack web applications using React, Next.js, Spring Boot, Node.js, and relational and NoSQL databases. Experienced in developing RESTful APIs, authentication, booking workflows, inventory management systems, and database-driven applications through academic projects. Strong foundation in object-oriented programming, problem solving, UI/UX design, and collaborative software development. Seeking a Software Engineering or Full-Stack Development internship to apply technical knowledge to real-world software solutions and gain industry experience.

Technical Skills

Programming: Java, JavaScript, Python, PHP, SQL, Kotlin, C, C++, R
Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS, Responsive UI/UX Design
Backend: Node.js, Express.js, Spring Boot, PHP, Java Servlets, RESTful APIs
Databases: PostgreSQL, MySQL, MongoDB, Oracle, SQLite
Mobile: Android Development (Kotlin/Java), API Integration, SQLite
Tools: Git, GitHub, VS Code, Postman, Figma
Concepts: Object-Oriented Programming (OOP), MVC Architecture, REST APIs

Projects

UNI NEXUS – Tutor Booking Management 2026

Next.js, Prisma, PostgreSQL, Tailwind CSS

- Developed a peer tutoring platform supporting tutor slot creation, student bookings, and tutoring-session management.
- Implemented booking conflict prevention, waitlist management, and smart notifications for tutoring sessions.
- Built a ratings and feedback system to support tutoring quality and improve the overall user experience.
- Implemented JWT-based authentication and RESTful APIs for secure application access and communication.

FLEXIT – Smart Campus Operations Hub (Booking Management) 2026

React, Spring Boot, Java, MongoDB, REST API, JWT

- Developed a full-stack booking management system with dedicated user and administrator functionality.
- Implemented booking approval, rejection, and cancellation workflows.
- Added booking conflict detection and resource availability validation to improve reservation reliability.
- Generated booking reports and dashboard statistics using MongoDB and Spring Boot.

Smart Dairy – Yogurt Manufacture and Production Management System 2025

React, Node.js, Express.js, PostgreSQL (PERN)

- Developed the Inventory and Warehouse Management module using the PERN stack.
- Implemented inventory tracking, warehouse storage, and stock monitoring functionality.
- Automated inventory updates by reducing available stock based on approved production requests.
- Built RESTful APIs and integrated PostgreSQL for efficient inventory data management.

Personal Developer Portfolio 2026

React.js, JavaScript, CSS, Framer Motion

- Designed and developed a responsive personal portfolio website to showcase software development projects, technical skills, education, and experience.
- Built reusable React components and responsive layouts to provide a consistent user experience across different screen sizes.
- Integrated Framer Motion animations and interactive UI elements to create a modern and engaging user experience.
- Added dedicated project showcases with demo content and project information to present completed development work.

Projects (Continued)

Educore – School Information Management System <i>Java, JSP, CSS, Apache Tomcat, MySQL, Eclipse IDE</i> - Developed a student admission management system for managing admission requests and student information. - Implemented admission approval, rejection, and interview scheduling functionality. - Integrated MySQL for storing and managing student records and application details. - Built the application using Java and deployed it using Apache Tomcat with an HTML/CSS user interface.	2025
Tintora – Cosmetics E-commerce Mobile App UI <i>Figma, UI/UX Design, Wireframing, Prototyping</i> - Designed a modern cosmetics e-commerce mobile application interface using Figma. - Created interactive prototypes and reusable UI components. - Focused on intuitive navigation, usability, and consistent visual design throughout the application.	2025
Motorcastle – Online Vehicle Park Reservation Management System <i>HTML, CSS, PHP, MySQL</i> - Developed a vehicle park reservation management module for handling visitor reservations. - Implemented slot booking, reservation creation, and reservation management functionality. - Designed and integrated a MySQL database for storing reservation and booking information. - Built a user-friendly web interface using HTML and CSS.	2024

Education

BSc (Hons) in Information Technology Sri Lanka Institute of Information Technology (SLIIT) Current GPA: 3.36	Nov 2023 – Present
Diploma in ICT ICBT Southern Campus	2022
Diploma in Advanced English ICBT Southern Campus	2022

Work Experience

Digital Product Customer Service Assistant <i>Bank of Ceylon, Kamburupitiya, Sri Lanka</i>	Aug 2022 – Feb 2023
Trainee Assistant – Cashier <i>Regional Development Bank, Kamburupitiya, Sri Lanka</i>	Jul 2023 – Oct 2023

Leadership & Extra-Curricular Activities

Batch Representative Sri Lanka Institute of Information Technology (SLIIT)	
Prefect Matara Central College, Matara	2019 – 2020
Announcer Media Unit of Matara Central College, Matara	2015 – 2020
